BOOK EDITING

CASE STUDY: HOW SUE ROBSON WROTE AND PUBLISHED HER FIRST BOOK

OVERVIEW

Sue Robson's quest to find the Ultimate Vocation took her on an incredible life adventure after she learned to embrace uncertainty and work through upheaval. She decided to write a book about her experiences, but needed help with this new process.

"One of the biggest challenges with creating change, be it career path, a lifestyle change or a new direction, is not knowing what to expect or where to start."—Sue Robson

APPROACH

Find a Proven Method

As a first-time author, Sue was new to the entire publishing process. She created her first draft according to the publishing school's guidelines.

"I was looking for someone who was experienced and understood my needs; someone who could guide me as I was new to writing my first book and I was looking for advice and guidance."

Trust Professional Recommendations

Sue's book coach recommended Lizette's editing services. The ContentCafe website seemed "professional with clear, concise, and easy to follow information" and Sue reached out via email.

Find Synergy

"Lizette is personable, caring, and thoughtful. She responded in a very timely manner AT ALL TIMES... considering we were in different parts of the world. She took genuine interest in my book and that was what I needed to complete my book," she explains.

CONCLUSION

TRAVEL TO LIVE: A proven path from upheaval & uncertainty to living the life you dream was published in December 2019 under Amazon's Solo Travel, Transpersonal Psychology, and Vocational Guidance categories.
